Penney Stores Fail To Show Evidences Of Any Depression

The first of a series of sectional conventions of managers of the great chain of J. C. Penney Company stores was held in St. Louis on September 16th and 17th. Over a hundred managers were in attendance. Other conventions will follow at St. Paul on September 23rd and 24th, Portland on September 30th and October 1st, and Salt Lake City on October 7th and 8th. Prevailing conditions as they are generally understood to exist, are not reflected in the financial report of this nation-wide institution, which shows that for the first eight months of this year the gross receipts were \$4,700,735.78 in excess of the figures for the corresponding period of last

President E. C. Sams attributes this increase largely to the fact that the public nowadays is shopping around and buying merchandise of quality at the lowest possible price. The purchasing power of such a tremendous organization as the J. C. Penney Company naturally makes possible the buying of selected merchandise of high quality so as to retail it at low prices.
